

# Financial Planning

A comprehensive e-learning course on Financial Planning

## The themes of this product are:

- Know basic concepts in financial planning
- Discuss various financial products for savers and investors
- Understand various types of personalities and their financial needs
- Recognize your financial goals and achieve them
- Have better control on taxes you pay
- Build a finance portfolio suiting your needs

## Overview

This e-learning course on 'Financial Planning' is designed to help users plan their finances. Basic concepts of financial planning, goal setting, and maximizing assets are discussed. An in-depth discussion of investing strategies is provided, including various instruments suitable for both savers and investors. Also covered are the types of personalities and their investment profiles along with the various stages in the life cycle of an investor. The course also provides strategies for reducing tax burden. In the end, it provides valuable information about how to build a model portfolio that suits your risk and return profile.
