

Brokerage Operations

Overview

Although prime brokerage has been in existence for many years, the tremendous growth in this sector of the capital markets services industry has been driven by the accelerated development of the hedge fund industry. This class of alternative investments has been in existence since the late 1940's but has increased in size at an astronomic rate in the last decade.

This course provides you an overview of the prime broking business, and the major services offered by the prime brokerage firms. The course also discusses the future of prime brokerage.

The screenshot shows a web browser window with the KESDEE Learning Management System. The page title is 'Prime Brokerage' and it is part of a 'Course Library'. The main content area is titled 'Overview - Need For Prime Brokerage' and contains two bullet points. Below the text is a line graph showing the projected growth in hedge fund assets from 1990 to 2008. The graph shows a steady increase over the period, with a callout indicating a 13-year CAGR of 26% and a projected 2004-2009 CAGR of 16.5%.

Year	Assets (US\$ mil)
1990	~100
1992	~150
1994	~200
1996	~300
1998	~400
2000	~500
2002	~700
2004	~1000
2006	~1400
2008	~1800
