

Trading Operation Controls

A practical guide to functioning of trading operations

Themes of this product

To understand the sequence of trading events that pass through:

- Front office
- Middle office
- Back office

Trading Operation Controls

The screenshot displays the KESD E Learning Management System interface. The top navigation bar includes icons for chat, messaging, discussion, progress, notepad, search, calendar, and feedback. The course title is 'Trading Operation Controls (TRM - 4 courses)'. The current page is 'Trade Life Cycle', which is the 6th of 31 slides. The main content area shows a flowchart of the trade life cycle, categorized into 'Trading activities' and 'Operational activities'. The flowchart consists of the following steps: Trade execution, Trade capture, Trade enrichment, Trade validation, Trade agreement, Settlement failure, and Trade settlement. Each step is represented by a yellow box with a downward arrow. The text below the flowchart states: 'Each of these activities are explained in the following screens.'

Overview

This e-learning course on 'Trading Operation Controls' is designed to help users understand the logical sequence of events involved in trade life cycle. An in-depth discussion of role and structure of front, middle and back office.
